moving and surprising us.

Marking its ninth edition, Roppongi Art Night is a one-night-only art event offering fun and unique experiences. This year's theme is "The City Dreams of Art," expressing the idea that visitors will experience amazing art installations and performances as if watching the beautiful dreams that the city has one night unfold before their eyes. Spontaneously appearing in various locations around Roppongi, the district that never sleeps, these works of art dazzle amid the shining neon and headlights. A wide range of works of art await discovery at each location, including a singing tower, moving sculpture, and waterfall of colorful fabric. Looking ahead to 2020, the importance of culture in the city continues to increase. As one of Tokyo's premier events conveying the city's culture at both the national and international levels, we hope that visitors will enjoy this extraordinary night.

Fumio Nanjo Chairperson of Roppongi Art Night Exective Committee

# **OVERVIEW**

Roppongi Art Night is an one-night art extravaganza staged in the district of Roppongi. The event proposes a pioneering model for urban development as well as a lifestyle that celebrates the enjoyment of art in our everyday lives. Presenting contemporary art, design, music, film, and performances, Roppongi Art Night offers an extraordinary experience. Launched in March 2009, the event is growing every year.

No 01 • Tower"

Roppongi Hills Arena **3** 5/26 18:00-5/27 6:00 11:00-18:00 **3** Admission: Free

Tower sings and dances like a human and conjures up a one-night dream. It brings together various collaborators, including the musicians Oorutaichi and Satoko Shibata, dancer Yasutake Shimaji, actor Izumi Aoyagi, playwright Toshiki Okada, and artist collective contact Gonzo. Experience the mixture of plastic arts and performance created by a hybrid collage sculpture.

# Teppei Kaneuji

Born 1978 in Kyoto, where he continues to reside. Completing postgraduate studies in sculpture at Kyoto City University of Arts in 2003, he currently teaches sculpture at the same university. His major solo exhibitions include "Teppei Kaneuji's Mercator Membrane" (Marugame Genichiro-Inokuma Museum of Contemporary Art, 2016). Expanding the notion of collage, he employs a wide range of media in his practice, including painting, sculpture, photography, video, installation, performance, and theater. Kaneuji works both in Japan and overseas.

# NPROGRAM & ARTISTS

# "hanging colors" "broken flowers"

- The National Art Center, Tokyo
- **(**) 5/26 10:00 5/27 18:00
- Admission: Free

A colorful textile waterfall, hanging colors accentuates the glass facade designed by Kisho Kurokawa. Tinted dreams are projected inside the building when natural light shines though the fabric during the daytime. The dreams remaining inside the building then burst out into the city as light at night.

In broken flowers, 5,000 mirrors cover the space in front of the main entrance of The National Art Center, Tokyo, onto which images of flowers are projected. These beautiful floral visuals simultaneously become a hollow dream and illusion.

....

# UJINO

Born 1964 in Tokyo, where he continues to reside, UJINO graduated from Tokyo University of the Arts in 1988 with a major in textile arts. His practice reconstructs everyday objects and technology found all over the world based on research of the material world since the 20th century, when mass consumption rapidly expanded. He is engaged in the multifaceted project *The Rotators*, which combines sound, sculpture, and performance to redefine modern culture. He has participated in exhibitions both in Japan and overseas, including Yokohama Triennale 2017.

UJINO exhibits a Roppongi version of *Dragon Head* that transforms a vehicle into a jaw. A fusion of traffic cones, car, and architecture, it is a moving sculpture with synchronized sound and light. The automobile is a symbol of the 20th century, which was characterized by mass production and the consumer society. *Dragon Head* is one of the representative works of this artist, who reconstructs everyday items and technology found all over the world, and proposes new definitions of modern culture.
